A word from the President

Change.

You are going to be hearing a lot of that word over the next few months. Most notably, Sturgeon Creek Community Centre and Silver Heights Community Centre have amalgamated.

Never in the history of both community centres will you see such dramatic change over the next couple of years. The most significant change will be the construction of a new facility. As the president of this new partnership, you can imagine how proud I am to be part of this history-making project which continues to be worked on.

While we are working closely with the GCWCC (Greater Council of Winnipeg Community Clubs), we are still working on the plans for a new facility, change continues to evolve. We have a new executive in place; all dedicated for a common goal of making our centre user-friendly with more programming for all ages. For background, the amalgamation between Sturgeon Creek and Silver Heights was partly the result of a report generated by the City of Winnipeg, which recommended several facilities within Winnipeg amalgamate to best serve its residents and neighbourhoods.

You will be pleased to know that our new executive is energized to make the unity of our two centres a friendly, vibrant facility to visit for our community members. That has always been our goal: to provide a safe, friendly and modern facility for our children, their parents and the residents of our neighbourhood.

Stay tuned for exciting news regarding the new facility and our new name!

If you have any questions or concerns, please contact myself at sturgeon_creek@hotmail.com or Peter Woods, our vice-president at peter@hockeymanitoba.mb.ca

Sincerely,

Linda Smiley
President
